

### Ways to help your child...

We will continue to send home reading books, weekly spellings and maths activities including times table rockstars, as well as some topic based homework. Please support your child with completing their homework. When hearing your child read, please try to keep a record of this in their reading diaries. This will improve their confidence and fluency in reading and writing.

### Science

In Science we will be exploring changing states. Changing things from liquids to solids as well as looking at gases.

### History and Geography

We are learning about the Romans and how they invaded Britain and what happened when they encountered Queen Boudicca and the Iceni tribe. We will be looking at what the Romans have brought to Britain and how they made bread.

### RE

We are learning about Hinduism and why they want good Karma. This will help the children look at their own feelings in different situations too.

## Spring Term 1: Badger Class

### Art and Design Technology.

We will be studying the work of Hunderwasser. Leading to the creation of a portrait.

We are going to be making our own bread after tasting different types of bread and using ancient recipes.

### English

In English, we will be looking at Fables, understanding the main structural elements and what a fable can teach us.

We will then move onto a Roman Adventure story. Developing our understanding of story structure and appropriate language for our audience.

### Important Dates

School Trip to the Ancient House Museum 18<sup>th</sup> January.

Half-term:

### Maths

This term we will be continuing learning our times tables focussing on the 8 and then 3 times tables.

We will be developing our understanding of capacity and mass as well as looking at perimeter and area.

We will continue using our number bonds and problem solving skills.
