

Ways to help your child...

Our homework is handed out each week on a Friday. We are focusing on SATs practice for Maths and English from their revision guides. It needs to be in on the following Wednesday. Children are also encouraged to complete 4 modules a week on Maths Tutor. Pupils will also have 'Do-it-now's' they do not manage to complete in class.

Science

Our science focus for the half term will be 'Earth and Space' in which we will learn and experiment about the main bodies in the solar system, including the lunar cycle. This unit will be the main focus of our school trip.

History / Geography

In geography, we will be looking at 'Our changing world' in which we will look and learn about the features of a map. We will also look at climate change and the importance of global trade.

RE/PSHE

In RE, we will be exploring Buddhism and how does the triple refuge help Buddhists in their journey through life.

Summer Term 1: Fox Class

Arts

In art, we will be exploring our identity and exploring how artists use layers and juxtaposition to create artwork which explores identity, which will lead you the class making their own layered portrait.

English

In English, we will be focusing on exploring a traditional narrative story and retelling/or continuing. We will also be writing a review of our favourite book. We will continue with spelling the common exception words, guided reading practice and SPaG in preparation for the SATS.

Maths

This term the children will be studying shapes and solving problems using the four operations before looking at more revision work on fractions, decimals and percentages. We will continue with Maths Tutor which the children are still being encouraged to do at home whilst continuing revision in preparation for SATS.

Music

In music we will be looking at 'You've got a Friend' as well as ideas for our end of year production.
