

Ways to help your child...

Please share the books that come home with your child every week. They will have a library book that we change on a Wednesday and their reading book that they have been working on all week and it is your child's opportunity to show how great they are at reading.

Please let us know in their diary that you have heard them.

Please remember to order your child's school dinner by Saturday each week or complete the whole half term!

Science

In science we will be learning about the seasons and how they change.

The children will learn about how the changes affect plants and animals as well as measuring and recording rainfall, temperature and wind speed.

History - Childhood

The children will be learning about about life in the past. This includes the changes to schools including how our current building has changed, life in the Victorian era and what schools were like for the Victorians.

Geography - Coastline

Here we will be learning about the coastline, studying a coastal town and learning about the physical and human features of the town.

Summer Term Owl Class

RE

The children will be learning about a range of families including those that follow Judaism.

Design Technology

We will be tasting different foods, designing and making our own designed salads and sandwiches.

Art and Design Technology.

We will making 3D birds after the half term break.

English

We will be looking at non-fiction writing about our science topic, the seasons, before moving on to some rhyming poems.

After half term we will be working with a fiction book linked to our geography topic.

Important Dates

PE kits on Tuesdays and Fridays.

30/4/24 - Reading Café.

Maths

This term the children will be developing their confidence using numbers to 100.

Reading and writing the names and numerals for numbers to 100.

Adding and subtracting across 10.
