

Physical Activities

This term we will be preparing for active week on **Tuesdays** and teams games with Mr Parker on **Fridays**.

To help with active week hand eye coordination practise your throwing and catching skills.

Science

Following on from our learning about habitats. Create your Ocean Habitat poster about some of the animals that live in the ocean. What are they are where would you find them living in the ocean eg under a rock? In seaweed?

History

Our focus is on inventors and significant people in the world of aviation. Design something that flies. Draw and label it.

Music

'The Bear Went Over The Mountain', what do you think he could have seen on the other side of the mountain?

er 1 Year 1 and 2
Homework

ART

Our medium is going to be rubbings. Can you create a picture from leaf rubbings, reflecting our flora and fauna focus in art.

English

Listen to your child read at least 4 times a week, remember to sign in their reading record. You could read a bedtime story, your class library book or your school reading book.

Wellbeing: Calm

Take your pencil for a walk across a blank piece of paper. Then colour in the shapes you have made in calming colours.

Maths

Year 1 and Year 2's will complete their work sheets from their Maths Scrapbooks weekly. Due in by Friday for a whole class discussion.
